Subject: FYI: Wolverine Team Update

Hi Beth,

So this is a development that we can discuss during our check-in with Tom on Wednesday morning. After over two years on the Flint enforcement case, I am turning Flint over to Anthony Ross and taking on Wolverine Project Management duties.

Best wishes,
 Heather

Heather A. Shoven
 Compliance and Enforcement Team Leader
 Ground Water and Drinking Water Branch
 U.S. Environmental Protection Agency, Region 5
 (312) 886-0153

Subject: Wolverine Team Update:

Hello Wolverine Team:

I'm pleased to advise you that Heather Shoven will be joining the Region's Wolverine team serving as 1) project lead; and 2) R5's key staff level point of contact with Abby Hendershot, MDEQ's key staff level point of contact. Heather will be responsible for facilitating the team's internal discussions and taking point on our communications with MDEQ on technical issues, especially with respect to drinking water and PFAS issues. Heather will also take the lead in coordinating with the Superfund Division.

Please give Heather all the support you can as she takes on this challenging assignment.

Also, I understand the size and make-up of the team may be shrinking somewhat as this matter turns into more of a normal enforcement matter. We'll keep everybody posted.

Finally, please share this with appropriate team members from your divisions. I know I have not captured everyone.

Thanks.

Chris
